20231123 POWDER Virtual office hour

1. The way to extend the experiment duration.
   - Use the POWDER reservation system(https://www.powderwireless.net/resgroup.php) to request resources for aparticular (longer) life span. making reservations based on project needs and justifying the duration of the reservation.

2. The way to open the UI?

   - The dashboard service running then want to think about how to safely expose it on the public internet. Log in and use that dashboard from web browser OKI and go through the ORAM profile to check about that
   - I think we can check about the POWDER_ORAM profile first. Check about the resource.

contact with the power users mail list and send mail to the powder users list will more fast to communication
